**Business Owners and Physicians:**

**Asset Protection and Estate Planning Seminar**

**JUPITER, FL (October 22, 2012)** – Curtis Francisco, CFP<sup>®</sup>, AIF<sup>®</sup> is offering business owners and physicians a timely seminar to learn how the new tax laws could affect their businesses beginning in 2013. The dinner seminar, featuring guest speaker, Eric M. Sauerberg, Esq., will be held Thursday, November 8, 2012 from 6:30 p.m. to 8:00 p.m. at Frenchman's Reserve in Palm Beach Gardens.

“It’s critical for physicians and other business owners to plan now for the impending new tax laws,” says Francisco. “Eric Sauerberg and I have been discussing how to help our business clients prepare, so we decided to present this seminar where professionals might learn not only from us, but from hearing each other’s questions and concerns.”

The office of Eric M. Sauerberg, P.A., located in Palm Beach Gardens, began operation in 2001. Sauerberg specializes in business law, advanced tax planning and wealth preservation. The topics he will present include Florida exempt assets, re-titling of assets, family limited

partnerships, limited liability companies, physician practice assets, estate planning, and estate tax exemptions.

The seminar, sponsored by Prudential, will include a delicious dinner and an entertaining wine tasting by Howard Freedland of Bulletproof Wines. RSVPs are required. Physicians and business owners who are interested in attending can call Curt Francisco's office to get more information: (561) 747-9550.

**About Curtis Francisco, CFP<sup>®</sup>, AIF<sup>®</sup>**

Curt has provided individuals and organizations with financial guidance since 1981. Located at 2141 Alternate A1A South, in Jupiter, Florida, he prides himself on crafting unique strategies for each client.
